

Thank you for buying this template. It is very easy to customize it:

1. First of all download and install the font [Montserrat](#).
2. In your project panel open the folder named "Placeholders".

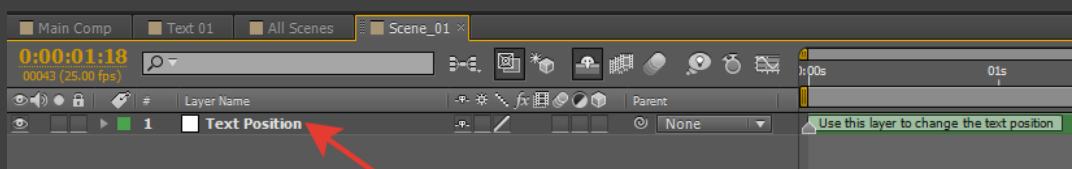

Place your photo or video inside composition "Placeholder_01" below the layer "Glass Shape". Select the layer "Glass Shape" and edit paths of the masks.

Do the same with all "Placeholder_###" compositions. Place your logo or tagline inside composition "Your Logo".

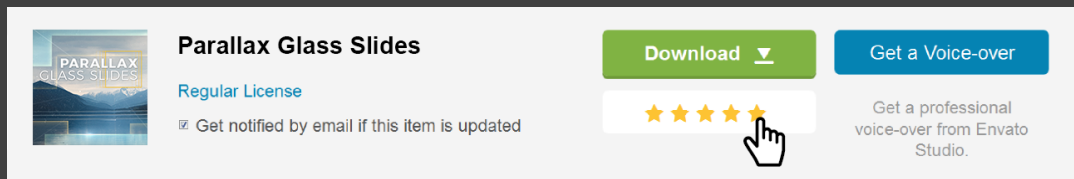

3. Open the folder named "Text Placeholders". Edit text inside compositions "Text ##". If you want to remove any text from your slideshow, delete it from this folder. If you want no text in your slideshow, simply delete the folder "Text Placeholders". Note that some of text placeholders contain layer "Line Settings". Use this layer to change the length, width and opacity of the line. If you want to change position of any text you have to open the folder "Render Comps", choose the version of the length you want, open the appropriate scene on your timeline and change position or scale of the layer "Text Position".

4. In your project panel open composition "Settings". Using the layer "Settings" you can adjust some elements of your slideshow (e.g. dust, flying particles, vignette, glow, etc.). Using the layer "Color Control" you can change colors of some elements and use color presets.

5. In your project panel open the folder "Render Comps", choose the version of the length you want, open it and hit render.

That is all! If you like my project, please take a few seconds to [rate it](#).

The screenshot shows a product listing for "Parallax Glass Slides". On the left is a thumbnail image of a glass slide with a landscape background and the text "PARALLAX GLASS SLIDES". To the right of the thumbnail, the product name "Parallax Glass Slides" is displayed in bold. Below the name, it says "Regular License" and a checkbox with the text "Get notified by email if this item is updated". To the right of these details is a green "Download" button with a dropdown arrow. Below the button is a five-star rating system with four stars filled and a hand cursor hovering over the fifth star. To the right of the rating is a blue "Get a Voice-over" button. Below this button, there is a small text advertisement: "Get a professional voice-over from Envato Studio."
